Experience

Remote Branding Specialist

Founder www.remotelandingspecialist.com | *Dec 2018 - Present*

The time had come to expand my cultural awareness and take a break from the London grind. I took to the road wanting to explore and live in other countries whilst focusing my creative experience and skillset to help the smaller folk with their big ideas. I saw a gap in the market and launched www.remotelandingspecialist.com. I've since created branding campaigns and marketing material for people, small businesses and startups from every corner of the earth pushing them to success. I grew my little passion into a small remote agency with a long list of clients I now call friends and a barrel of creative work out in the real world making a difference. Crafting a life as a remote creative nomad has been one of the most rewarding and intellectually stimulating experiences of my life.

Pernod Ricard

Freelance creative lead | Building an internal creative agency | Jan 2018 - Dec 2018

Brought in by Tony Woodhead (Business Consultant) to help in the growth of a new internal agency. Wholly supported by the Pernod Ricard board.

I saw the brands, scrutinised the current work and let my northern gob go. Instead of kicking me out, they asked me to creatively lead. We challenged and pitched against external agencies, created small ATL campaigns, press ads, social media campaigns, radio ads, directed photoshoots, launched new products and positioned the internal agency far beyond just a production house. It still grows.

- Grew the internal agency over several months from 1 designer to 15 employees and from a £20,000pm turnover to £150,000+pm.

- Creatively positioned the agency to the 200+ internal clients, built a trusting rapport for creative work, pitched and won against external agencies for campaigns and clients.

- Averaged 46 projects a month at peak across ABSOLUT, Jameson, Malibu, Campo Viejo, Chivas, Brandcott Estate, Ceder's, Martell, Plymouth Gin and Beefeater
